*The Herefordshire Rural Hub accepts no liability for any direct, indirect or consequential loss arising from any action taken in reliance on the information contained in this newsletter.*

I wanted to say hello and thank you for the very positive welcome I have received from everyone since joining the Rural Hub.

My new role as Hub coordinator started officially on 11<sup>th</sup> February, but I have been working alongside Cathy Meredith for a while trying to absorb a little of her knowledge. As you know Cathy will be staying on as a Hub Director, for which we are all grateful.

I have been along to the Green futures briefings which are so informative and there were some excellent speakers.

It was also good to meet some of you at the Faster Farmers workshop on "Managing the digital office", and there are more events planned, which are well worth going along too.

It's an interesting time to be joining the Hub with the challenges ahead for rural businesses and farming post-Brexit. However, I know there are a number of knowledgeable organisations in Herefordshire, and I am looking forward to working with them moving forward.

Please do get in touch if you think there are specific areas of information or training that you think would be helpful for us to consider in the future.

Best wishes,

*Caron*

Attendees must ensure they collect a voucher at the vehicle workshop and arrange testing direct with either Tallis Amos Group or Morris Corfield.

## CSF Shropshire - "Reduce Ammonia Emissions to Improve Business Performance"

Wednesday, 6th March 2019 from 10:00am until 2:00pm *Light lunch available*

Regional Food Academy, Harper Adams University, Newport, Shropshire TF10 8NB

Better utilisation of fertilisers and organic manures could reduce nitrogen costs and help future proof farm operations. The UK Government now has ammonia reduction targets and many farms will need to make changes in the near future to reduce the losses which cost UK agriculture £138M/yr. Find out more about ways of reducing ammonia losses and the benefits of reduced costs, optimised inputs and improved efficiencies on your farm.

This meeting will focus on dairy/mixed dairy units and will include an indoor presentation and a demonstration of low emission spreading equipment.

Tom Misselbrook, specialist in ammonia mitigation at Rothamsted Research, will discuss the financial and environmental benefits of reducing ammonia emissions and the best techniques available to do this.

**Booking is essential** (please have your CPH/SBI to hand) Telephone: **01270 616800** Email: [kim.woolley@genusplc.com](mailto:kim.woolley@genusplc.com)

## The Wye & Usk Foundation – Here to Help

**Natural Flood Management:** Our advisers are working with landowners in target catchments to help deliver Natural Flood Management interventions through a DEFRA funded project. The target catchments are the Dulas, Bodenham, Pentaloe, Tedstone, Cheaton, Ridgemoor and Red/Twyford Brook. The project is run in partnership with Herefordshire Council and we can offer soil structure assessments, infiltration rate tests, worm counts and organic matter testing. If you farm in one of the target catchment and would like to find out more please call one of our advisers or visit:

<https://www.herefordshire.gov.uk/info/200196/roads/345/flooding/6>

**Metaldehyde:** It was recently announced that Metaldehyde will be banned from 2020. It has been a concern in the Wye for many years due to its impact on Drinking Water abstractions belonging to Severn Trent lower down the catchment. We are asking users to continue to follow safe spreading and handling procedures with any Metaldehyde based slug pellets they have left to use up during this transition period. Alternative products which use ferric phosphate as the active ingredient are just as effective for slug control thankfully!

**Stewardship Schemes:** Agreement offers are slowly trickling out for the schemes applied for last summer, if we assisted with your application and you would like us to check your agreement document please contact your adviser. We are also already getting requests for 2019 scheme applications – start thinking about it now and give us a call if you'd like us to help!

**Our Advisers:** Our team has expanded again, and we are now a team of 8 – Kate, Mike, Lucinda, Tom and Jonny are all working across Herefordshire – we have now been joined by Abi Croshaw who was previously with CSF. Liz Price currently delivers farm advice in the Welsh Wye and has now been joined by Bridie Whittle.

**For more information or to request a visit please contact one of the WUF advisers: Kate Adams (07766 330 959) Lucinda Lewis (07824 904 877); Mike Williams (07920 441 215); Tom Jolley (07545 253 155); Jonny Pugh (07825 743 447) Liz Price (07776 197740); Abi Croshaw (07990 068941); Bridie Whittle (07799 049373)**

## Nominations are open for the Three Counties Farmer – Farming Awards

<https://www.worcesternews.co.uk/awards/tcf/>

**Nominations close April 10th 2019**

The awards aim to celebrate the achievements of the industry in Gloucestershire, Herefordshire and Worcestershire. The twelve categories sheep, cattle, pig, poultry, fruit/hop and arable farmer of the year, as well as young farmer, farming contractor, farming hero, family-run farm, sustainable & diversification farm, and outstanding achievement award Awards will also be presented for the best family-run farm and best farm exhibiting sustainability and diversification.

The award winners will be named at a gala dinner at the Three Counties Showground on Thursday, June 13<sup>th</sup>, the eve of the Royal Three Counties Show. Money raised there will go to farming charity the Addington Fund, which helps find homes for farming families who have had to leave the industry.

## The Prince's Countryside Fund

The Herefordshire Federation of Young Farmers' Clubs (HFYFC) working in partnership with Herefordshire Rural Hub have secured funding to provide support for training in a **rurally based career** to the end of December 2019. The funding is easy to access. All you need to do is select which course you would like to go on and complete the application form. If your application is approved you will be able to reclaim **70%** of your training and test costs, up to a maximum of **£250**. **Applicants must be a current member of HFYFC or a past HFYFC member (up to 40 yrs old).**

The fund will support training that will; *improve your employability, increase or improve your skill set, improve your safety or allow you to undertake extra responsibility in your current job.*

Some examples of training that has been funded so far:-

**B+E Trailer, Chainsaw Certification, Pesticide Applications, Shearing, Artificial Insemination, Tractor Driving, Forklift Truck Driving**

You could even apply for funding towards a **Rodent Control** course

Whatever training you are applying for, **please ensure that you submit your application in good time before your course is due to take place, as training cannot be funded retrospectively.**

Please note, the appraisal panel meets on the first Monday of the month.

## The Jack Hughes Fund - administered by Herefordshire Community Foundation

The Jack Hughes Fund will fund up to a maximum of 70% of the cost of training or costs up to a maximum of £150.

Funding will be limited to one family member/employee per annum

**The programme will be available for farmers aged over 40**

and will specifically provide funds to support those who require:

- retraining or upskilling as they are leaving the industry
- training to support a new farm diversification enterprise
- training or business support for succession planning

**Funding will also be available for the following courses:**

- Safe use of pesticides – PA1, PA2, PA6
- Rodent control on farms
- Emergency first aid
- Food safety (Basic Food Hygiene)
- Chainsaw Maintenance & Cross Cutting (CS30)

**The funding is easy to access, but please note that the project will not support training retrospectively & places will be limited.**

**Applicants need to be resident in Herefordshire.** For further details or an application form contact:-

## "Keep Herefordshire Warm"

Herefordshire Council have recently been successful in receiving capital funding to help support the installation of **first-time central heating systems** for vulnerable residents across the County. The funding from the Warm Homes Fund – combined with other energy efficiency grants, should result in works being fully funded for those that qualify.

"Keep Herefordshire Warm" are particularly keen to hear from residents who currently use night storage heaters or gas fires only – as their main heating. Those relying on solid fuel heating will also qualify. Please note – any properties with existing central heating (e.g radiators) that use anything other than solid fuel will **not** qualify for this scheme. However, KHW can still assist these householders and look at additional grant options.

To enquire about grants to help repair or replace your heating, check your eligibility for the Warm Homes Discount or for any other energy related advice, Herefordshire residents should contact

**Keep Herefordshire Warm** on **0800 677 1432** or via email at [khw@mea.org.uk](mailto:khw@mea.org.uk)

Or visit the website [https://www.herefordshire.gov.uk/info/200139/community/682/home\\_energy](https://www.herefordshire.gov.uk/info/200139/community/682/home_energy)

## Are you unsure about details of rules or regulations? Need help with understanding record keeping?

You may be cautious about asking for help from a regulatory body such as the Environment Agency, but they are always willing to advise and help you. Herefordshire Rural Hub can help signpost which organisation can help you.

Don't hold back from asking for help. It's free and could save your Basic Payment.

### From Paul Crumpton - West Mercia Police

Target Hardening is all about making it more difficult for the crook to get hold of your stuff! It doesn't just apply to the items on the farm or at home, but also online too. In relation to Fraud and Cybercrime here are my TOP TIPS of the month !

**1. Do not give any personal information (name, address, bank details, email or phone number) to organisations or people before verifying their credentials.**

- Always question unsolicited calls, texts or emails requesting your personal or financial information (name, address, bank details, email or phone number). Instead, contact the company directly using a known email or phone number.

**2. Make sure your computer has up-to-date anti-virus software and a firewall installed. Ensure your browser is set to the highest level of security and monitoring to prevent malware issues and computer crimes.**

- Always install the latest software and app updates on all of your devices. Protect your email account with a strong, separate password and enable two-factor authentication (2FA) where possible.
- Installing, or enabling, antivirus software on your laptops and computers will protect them from viruses and hackers.

**3. Many frauds start with a phishing email. Remember that banks and financial institutions will not send you an email asking you to click on a link and confirm your bank details. Do not trust such emails, even if they look genuine. You can always call your bank using the phone number on a genuine piece of correspondence, website (typed directly into the address bar) or the phone book to check if you're not sure.**

- Never automatically click on a link in an unexpected email or text.
- Remember, email addresses and phone numbers can be spoofed, so don't use those as a means to verify that a message or call is authentic.
- The best way to get in touch with a company is to use a known email or phone number, such as the one on the back of your bank card.

**4. Sign-up to [Verified by Visa](#) or [MasterCard Secure Code](#) whenever you are given the option while shopping online. This involves you registering a password with your card company and adds an additional layer of security to online transactions with signed-up retailers.**

- Layer up your protection. When shopping online, always check the web address to make sure you are on the correct site and sign-up to Verified by Visa or MasterCard Secure Code whenever you are given the option.

**5. You should regularly get a copy of your credit file and check it for entries you don't recognise. Callcredit, Equifax and Experian can all provide your credit file. An identity protection service such as [ProtectMyID](#) monitors your Experian credit report and alerts you by email or SMS to potential fraudulent activity. If it's fraud, a dedicated caseworker will help you resolve everything.**

- You should regularly get a copy of your credit file. [Callcredit](#), [Equifax](#), [Experian](#), [ClearScore](#) and [Noddle](#) can all provide you with a copy. If you spot anything suspicious, make sure your report it as soon as possible.
- If you have been affected by a data breach that leaked your personal or financial details, monitor your credit file and bank accounts regularly for any unusual activity.
- An identity protection service such as [ProtectMyID](#) monitors your Experian credit report and alerts you by email or SMS to potential fraudulent activity. If it's fraud, a dedicated caseworker will help you resolve everything.

**6. Destroy and preferably shred receipts with your card details on and post with your name and address on. Identity fraudsters don't need much information in order to be able to clone your identity.**

**7. If you receive bills, invoices or receipts for things that you haven't bought, or financial institutions you don't normally deal with or contact you about outstanding debts, take action. Your identity may have been stolen.**

- Stay in control, destroy your receipts and posts with you name on. If you receive a bill, invoice, or receipts for things you haven't brought or normally deal with, take action. Your identity may have been stolen.

**8. Be extremely wary of post, phone calls or emails offering you business deals out of the blue. If an offer seems too good to be true, it probably is. Always question it.**

- Listen to your instincts and be wary of unsolicited calls, emails or online ads offering deals that sound too good to be true.
- Genuine banks, or other trusted organisations, won't pressure you into making a financial transaction, if something feels wrong then it's usually right to question it.

**9. If you have been a victim of fraud, be aware of [fraud recovery fraud](#). This is when fraudsters pretend to be a lawyer or a law enforcement officer and tell you they can help you recover the money you've already lost.**
